# Taiwan's Leading Motorcycle and Automobile Manufacturer

Establishment: 1961

Ticker: 2206 TT

Full-Time Employees: 2,300

Dedicated in R&D, manufacturing, and marketing of motorcycles, scooters, all-terrain vehicles (ATV), and automobile

2023 Revenue of NT\$ 64.5bn / 2024 Cumulative

Revenue through September 2024 of NT\$ 51.1bn

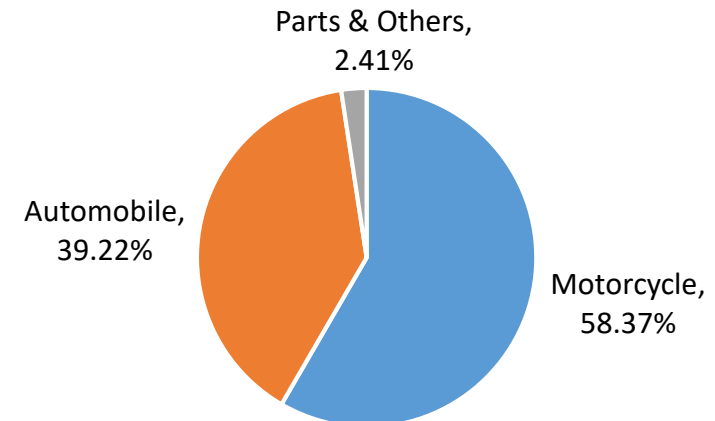

Market Cap: US\$ 1.735 bn (2024/10/15)

- Headquarters: Hsinchu, Taiwan
- Hsinchu Plant: 280,000 units (2 wheel); 12,000 units (4 wheel)/yr
- Xiamen Plant: 250,000 units (2 wheel)
- Vietnam Plant: 120,000 units (2 wheel)

Jan - Sep 2024 Taiwan  
Motorcycle Market Share

2023 Sanyang Product Mix

# Value Creation – Sanyang Style

- Sanyang Motor's business across motorcycle and automobile. The motorcycle division manufactures and markets its own brand (SYM) motorcycle in Taiwan, also its own brand and OEM in the overseas market. The current market share of SYM in Taiwan as of September 2024 is 40.8%.
- The automobile division manufactures and imports Hyundai vehicles in Taiwan Market.
- After Mr. Wu, Ching-yuan was elected as the Vice Chairman of Sanyang Motor in 2014, he initiated a series of transformation plans for Sanyang to expand economies of scale and vertical integration.
- Under Mr. Wu's leadership, Sanyang returned to the #1 motorcycle brand in the Taiwan market.
- Sanyang's mid-term target:
  - 1) Maintain its #1 position in Taiwan market;
  - 2) Global motorcycle sales over 750,000 units;
  - 3) Hyundai's market share improved to the Top 4 in Taiwan.

# Strong Leadership- Chairman: Wu, Ching-Yuan

- Chairman Wu graduated from the National Taipei University of Technology and holds an Associate Degree in Mechanical engineering, he also holds a Master's Degree in Architecture and Urban Planning from Chung Hua University.
- Mr. Wu was elected to be the Vice Chairman in 2014, and Chairman & CEO in 2017.
- Chairman Wu initiated a 3x3-year development plan in 2014, accelerating the transformation of Sanyang Motor, improving product quality and competitiveness.
- Under his leadership, SYM's motorcycle market share in Taiwan rose from a monthly low of 9% in 2014 to a peak of 44.9% in a single month in 2024. In 2023, the earnings per share (EPS) surged to NT\$7.95, setting a new historical record.

# Improved Profitability and Efficiency After Transformation

- Under Chairman Wu's leadership, the Company re-focused on the core business. Sanyang developed a series of fuel-efficient and low-emission engines –with more power output. Using high-quality parts and electronic control units in all models of products. Competitors without innovative products and fast response to the market lose share and Sanyang has swiftly seized market share and, as of September 2024, led the competition by a margin of 12.3 percentage points.
- The profit margin has seen a significant increase from 12.7% in 2014 to 20.6% in the second quarter of 2024.
- Sanyang pledges to maintain its #1 position in Taiwan market.

# Strategies to Sustainable Growth

- Focus on core business, improve revenue, margin and ROE. Targeting sustainable ROE over 15%.
  - Expand market share of SYM and Hyundai, Strengthen brand image.
- 
- Develop multiple battery technologies for different applications.
  - Leverage the next generation Aluminum battery technology to develop a sustainable energy business to become a new revenue stream for Sanyang.
- 
- Reactivate land assets of Sanyang and re-invest profit back into core business.
  - Targeting ROI >20% from each project.

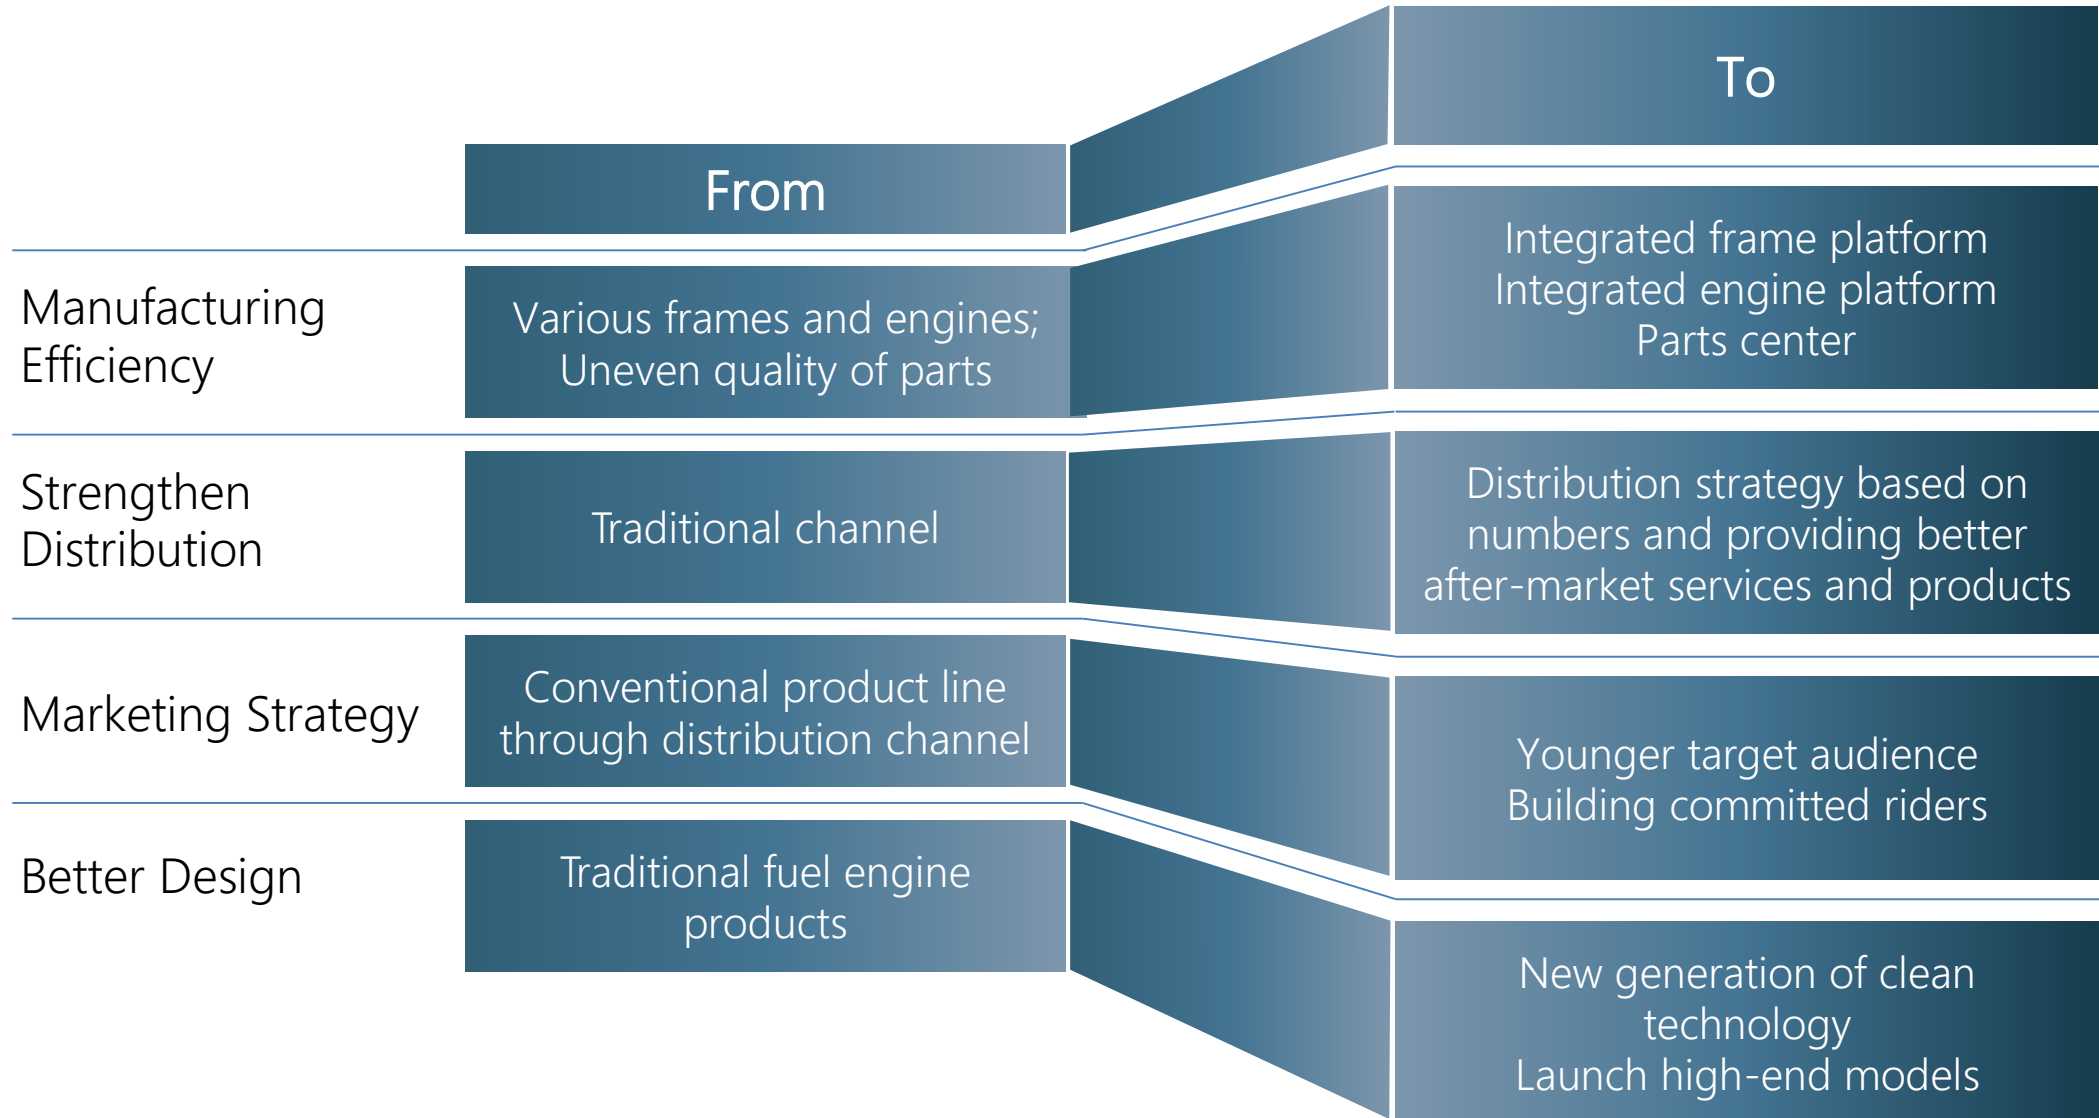

# Motorcycle

# Sanyang's Transformation

# Improved Manufacturing Efficiency

## Leaner, Faster, Better

- Integrated motorcycle frame and engine platform:  
Develop new models with shared frame and engine, to centralize procurement, improve production efficiency and fast response to market needs.
- Set up Parts Center which belongs to Sanyang, unify the quality of original parts and aftermarket parts. Increased quality has elevated customer satisfaction and increase profit.

### Improving Motorcycle Business Profitability

# Strengthen Distribution Channel

## Easier Access, Higher Satisfaction

### Leveraging Social Media, Quick Response to the Market:

Sanyang collected rider's feedback through comments on the internet or social media, and its distribution channels as well as repair shops. Find out the rider's problem and integrate the solutions into new models.

### More Dealers and Sanyang Specialty Stores:

Focused on territories with weaker sales channel coverage, increase more dealer and specialty stores to expand access and appeal to more potential customers.

### Better Training:

Provides new product training programs to dealer/ specialty stores and repair shops, ex. Jet engine, electrical parts, wiring, latest engine model repair...etc. The program improved brand loyalty to channels, improved customer satisfaction with aftermarket services, and strengthened the commitment of riders.

# Creative Marketing Strategy

## Younger, Stickier, More Conversion

- We are developing a younger SYM brand name and targeting 18–35-year-old riders.
- We have a wide range of promotion campaigns, ex. Collaboration with video games, and participated in the TSR\* championship to boost our sales; We also put a lot of effort into building SYM rider's community, to serve over 4 million SYM Riders in Taiwan.
- The new marketing initiative increased the test ride rate, conversion rate, and commitment of the riders to the SYM brand.
- After 16 years and 5 months, SYM returned to the #1 market share in Taiwan in May 2022.

# Better Design

## Stronger, Faster, More Spectacular

- **Shortened new product development:** Design based on shared frame and engine, improved quality and largely shortened R&D timeline, from 18 months per model down to as short as 8 months.
- **Quality design improved ASP:** Develop a more powerful fuel-efficient engine and high-end motorcycle, to elevate ASP.
- **SYM Re-brand:** Design a younger model, including JET SR, and the 4 Sacred Beasts series to forge the brand name.
- **Agility of competition:** Fast react to the latest regulation of emission and fuel consumption. The first company which all the products meet the latest regulation.

# Energy Strategy

## Greener, Cleaner, More Sustainable

### Core Battery Technology

2022

2023

2024

2025

2026-

#### Aluminum Battery (Aph ePower)

Pilot Plant

Pilot Production

Mass Production

Construction of the second-generation factory  
(first production facility)

Tolerate wide temperature range, low manufacturing pollutions, long life cycle, fast charging/discharging, can replace lead-acid batteries and apply to budget models. The battery is also good for energy storage.

#### Lithium-ion Ternary+ Battery (CPC Taiwan)

CPC Project  
Pilot  
Production

Launch a series of new E-motorcycle model

High energy density, long life cycle and fast charging/ discharging, will be used in high-end models. The project also leverages the advantage of over 2,000 service stations of CPC Taiwan.

- Sanyang had set up a new International Business Development Sector to centralize resources and coordinate capacity in Hsinchu, Xiamen and Vietnam for global motorcycle market.
- Current footprints across China, ASEAN countries, Northeast Asia, Europe and the Americas.
- Other than own brand products, Sanyang also signed OEM contract with Lambretta (Italy) and Peugeot (France).

## SYM Ex-Taiwan Shipment

# Automobile

- Sanyang Motor, the exclusive distributor and manufacturer of Hyundai brand in Taiwan, had 22,169 unit sales in 2023, which not only was the highest in record, but also translated into a 44% growth and a 4.6% market share. Given the performance, Hyundai became Taiwan’s fourth largest brand in the domestic non-luxury car segment. Sanyang expects to take up at least 5.7% market share by 2025, and make Hyundai a member of the biggest four in Taiwan car market.

**Hyundai Automobile Sales Volume in Taiwan**

Rank	Brand	2023	2024 Q3	2025
		Market share	Market share	share target
1	Toyota	27.90%	27.30%	<div>5.7%</div>
